

REOLOAD

Enclosed single-phase rotary rheostats

Type REOLOAD

These rotary rheostats, in robust, aluminium housings, are used as loads in laboratory and test applications.

A linear or stepped resistance range can be manufactured.

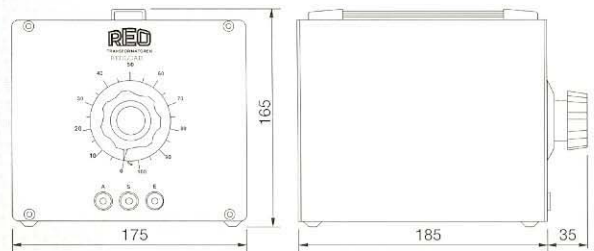

The enclosures are portable and can be stacked to save space.

Specification:

- Rotary rheostat
- Laboratory-style, safety output sockets
- Carrying handle

Technical Data:

Resistance Value	: 1...10.000 Ω
Tolerance	: ± 10% (± 5% possible)
Load Current	: 0.03...13.6 A
Maximum Voltage	: 250 V
Enclosure Rating	: IP 20
Related Standards	: DIN 41473

Size	Load W	Weight kg
R10	16	1.5
R20	35	1.6
R40	50	1.7
R75	100	1.8
R100	125	2.0
R150	180	2.3
